CUT FLOWER VARIETIES

ROOTED CUTTINGS

When Ordering Mum Cuttings

Please indicate the earliest date delivery will be acceptable and the maximum number of cuttings that can be handled in a shipment.

Our growers suggest—for the best service and in order to assure delivery of cuttings when you want them—that it is necessary to have your order at least six months in advance of shipping date. Orders on shorter notice will receive the best possible attention. Changes or cancellations must be received at least thirty (30) days before shipment. We suggest that you advise whether substitutions will be acceptable, when giving the order.

Fifty (50) rooted cuttings of a variety is the minimum that can be supplied. More than fifty (50) of a variety must be in multiples of 50.

Shipments will be sent Railway Express unless otherwise instructed.

When shipments arrive in an unsatisfactory condition for any reason—notify your Express Agent at once and have him mark on your express receipt the condition of the shipment or give you a "Joint Inspection Report." Bring claim against delivering company. We hold good order receipt from Transportation Company and cannot be responsible for damage caused by their negligence.

Rooted cuttings delivered before May 15th may set premature buds if night temperature rises to 60 degrees or more. Additional lighting will prevent this. Use 60 watt bulbs spaced 4 feet apart and 30 inches above the plants two to five hours, depending on season. We cannot be responsible when this condition develops.

Use this table to determine quantity prices.

Prices are for the number of one variety ordered, for one specific delivery date and not for the total number of the order.

Off Season Timing

Lights—When flowering varieties out of the natural season by the use of lights and shading the following general rules apply. Varieties are classified 8, 9, etc. week varieties. This is the period of time it takes for them to bloom after short days are started. 8, 9 and 10 week varieties should be lighted from August 1st to May 15th provided plants are grown at 60° minimum, to retard bud formation, 11 week varieties should be lighted after August 15th to May 1st. 12, 13 and 14 week varieties should be lighted Sept. 1st to April 15th. Two hours during August is sufficient, increasing one hour each month until five hours in November and December and then diminishing to four hours during January and February, March to three and April to two.

Shading—8, 9 and 10 week varieties must be shaded April 1st to September 15th to insure bud set out of season. 11 week varieties should be shaded March 15th to October 1st and 12, 13 and 14 week varieties should be shaded from March 1st to October 15th.

Snaps for Greenhouse Forcing

ORIGINATOR'S STRAINS

Hybrid Snapdragons have practically eliminated the open pollinated sorts. They grow more vigorously, more uniform, and produce more cut flowers per square foot. Many of them are especially suited to single stem culture, which method yields a higher profit because of the shorter time required to mature a crop. Spacing 3" x 4" gives a better dollar return although quality will not be as good.

SOMERSET'S

Fine Asters

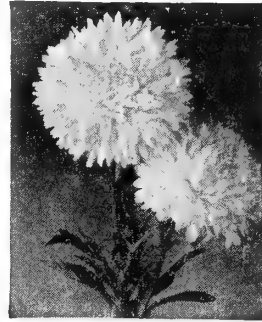

(12,000 seeds per oz.)

PRINCESS

CREGO

EARLY ROYAL

CALIF. SUNSHINE

Wilt Resistant Asters are the result of many years of selection. The disease organism is carried in the soil and persists indefinitely. It is easily spread and may only be destroyed by sterilization. Yellows is spread mainly by leaf hoppers, and, to prevent infection, cloth or greenhouse protection is necessary. Spraying the plants and surrounding vegetation with DDT will help. Seed sown February 15th and lighted, as soon as it comes up, will flower in late June or early July. 6 x 6 spacing for single or double stems is ample.

Petunias

F-1 Multiflora Glitters — A.A.S. 1957

MULTIFLORA F-1 HYBRIDS

A new class of bedding petunia, more vigorous, more brilliant and more free blooming than the regular varieties. The seed costs more but your customers will be willing to pay more.

Glitters. A.A.S. 1957. Brilliant scarlet blooms with regular white markings, mostly on the tips of pointed petals. Very dwarf, height 8", spread 16-18 inches.
 1/2 Pkt. \$1.35; Pkt. \$2.50; 1/128 oz. \$4.50; 1/64 oz. \$8.00;
 1/32 oz. \$15.50

Red Satin. A.A.S. 1957. Medium sized blooms of rich satiny red, on very compact plants. Good for bedding or pots. Very free flowering.
 1/2 Pkt. \$1.25; Pkt. \$2.25; 1/128 oz. \$4.00; 1/64 oz. \$7.50;
 1/32 oz. \$14.50

Aztec. New. Deep red brightened by a yellow throat.

Inca. New. Rose red with a yellow throat.

Comanche. A.A.S. 1953. The forerunner of this class and conceded to be the best red bedding petunia. A rich bright red that stays red.

Apache. Bright rose red. This and the next two varieties are all similar to Comanche except for color.

Sioux. Medium salmon tone.

Paleface. Pure white. A fine companion for Comanche.

Starbright. Outstanding starred variety. Flowers are medium size with a white star on a plum red ground. Plants are compact, very free flowering.

Linda. Soft pink touched with salmon. Two and one-half inch blooms cover the vigorous compact plants all summer.

Pink Sensation. Color light silvery pink the same as Fair Lady but the flowers are larger and the plants more vigorous.

Silver Medal. Very similar to Linda in size of flower freedom of bloom and habit. Somewhat more open in growth and the color is slightly richer in salmon.

Mixture. Hand blend of all the above varieties.

1/2 Pkt. \$1.00; Pkt. \$1.75; 1/128 oz. \$3.50; 1/64 oz. \$6.50;
 1/32 oz. \$11.70

ALL DOUBLE

The following are selected varieties chosen for their quality and popularity. Double petunias make a reasonably priced yet profitable pot plant for Easter and Mother's Day sales. November or December sowing is necessary to produce 4" and 5" plants.

Allegro. Rich salmon. A real knockout. The most popular all double we offer. Immense flowers, a brilliant attractive color and vigorous yet compact plants.

Attraction. Bright rose and white mottled. Somewhat taller than Gaiety but the flowers are brighter.

Blue Brocade. Attractive deep blue.

Caprice. Rose pink blooms on compact plants.

Gaiety. Blotched pink and white. Medium size, very double blooms on compact plants.

Loveliness. Soft light pink. A really lovely shade. Occasionally some plants may need pinching to keep them low.

Orchid Beauty Reselected. Giant, silvery lilac blue, fringed blooms.

Purple Queen. Gigantic 5 inch blooms of rich purple shaded velvety blue.

Nocturne. Deep rich velvety purple. Semi-double flowers, true grandiflora type.

Rhapsody. Burgundy wine purple. Dwarf, vigorous, large flowered, fully fringed. Nice combined with white.

Sonata. The finest white. Well fringed and ruffled, extra large pure white blooms, produced on medium dwarf vigorous plants.

World Beauty. Dwarf deep rose.

Price of any of the above colors: 1/2 Pkt. \$2.75; Pkt. (1,000 seeds) \$4.50; 1/128 oz. \$8.50; 1/64 oz. \$16.00; 1/32 oz. \$29.50.

ALL DOUBLE MIXTURES

Glorious. (Pan American). A formula mixture of all the colors available in this fine large flowered strain.

1/2 Pkt. \$2.25; Pkt. (1000 seeds) \$4.00; 1/128 oz. \$7.45;
 1/64 oz. \$14.45

Ballerina A.A.S. Rich glowing salmon. Plants are uniformly dwarf but vigorous. The large fringed blooms are freely produced.

Blue Mantle. Large ruffled and fringed velvety violet blue.

Bolero. Large ruffled and fringed blooms of a rich rose shade. Larger flowered and more vigorous than Setting Sun.

Crusader. Gaily striped or blotched rose pink on white with occasional plants coming pure rose pink. An attractive introduction.

Exquisite. Scarlet and white blooms in endless variety on dwarf vigorous plants.

Fire Dance. Bright scarlet fringed blooms. The color is intensified by a small yellow throat.

1/2 pkt. \$1.75; Pkt. \$3.00; 1/128 oz. \$5.50; 1/64 oz. \$10.00;
1/32 oz. \$10.00

Firegleam. Vigorous compact plants. Medium sized ruffled blooms of glowing salmon scarlet.

Flirt. Clear bright pink flowers on vigorous compact plants.

La Paloma. The finest single white. Very large flowers well fringed. December sowing will produce a gorgeous pot for Easter.

Minstrel. Large ruffled blooms in various combination of white and violet blue. Very showy, vigorous and free flowering.

Prima Donna. A.A.S. 1955. A rose pink version of Ballerina. Giant 3 1/2-4 inch fringed blooms very free flowering on vigorous dwarf compact plants.

Snow Fairy. Well fringed large pure white flowers on dwarf compact plants.

Tango Improved. A reselection with richer deeper red blooms.

Twilight. Clear pale blue with heavier veining. Well fringed blooms on a compact plant.

Ballet Mixture. A brilliant blend of fringed and ruffled grandiflora types.

Florist's Stocks

(19,000 seeds per oz.)

This important cut flower assumes even greater importance as labor and other costs rise. They are best grown in a temperature of 50-60 degrees. Sowing direct into the bench where they are to bloom makes for stronger, more vigorous plants. Rows are usually made 6 inches apart and the plants are thinned to stand approximately 3 inches. Selection of the stronger seedlings will have a tendency to increase the percentage of doubles. Proper feeding with Hy-Gro (every two weeks until buds form) will be found beneficial and greatly improves the quality.

SOMERSET'S

Perennial Flower Seeds

There has been a brisk demand for the better perennials during the past few years, and the supply has been inadequate. The cut flower value of some items is considerable, and is often available at a time when other cut flowers are in short supply. Seed is a cheap and quick way to obtain a stock of many items. Some items are tricky to germinate satisfactorily, but most can be easily raised when sown in early spring, either in the greenhouse or cold frames. Light freezes will not harm most items, and best results are obtained while the weather is cool. Midsummer sowing is recommended by some authorities, and the seed of many items can be germinated successfully at that time. Greater care, however, is necessary, as weather conditions are less favorable, and under hot humid conditions, results are often unsatisfactory. We shall, at all times, endeavor to give you seed of the best possible strains and viability.

It's Easy To Pot Rose Bushes

GET PREMIUM PRICE — CUT LOSSES

Use No. 2 Menne Pot or 9 1/2" Bird Paper Pots. Soil should be a mixture of three parts of **any good soil** and **one part of peat or rotted cow manure**. Place about two inches of soil on bottom of pot. Work roots into pot by turning and fill to top with soil. Use hammer handle or cut broom handle to **pack soil firmly**. Refill with soil if necessary and fill pot so there is about two inch space between top of soil and rim. Water thoroughly, **so soil is wet all the way through**. Place potted plants in a cold frame or any other place where they **will not be exposed to drafts or wind**. Light frost will not harm them. Keep tops moist, maintaining high humidity by spraying lightly. Allow soil to get slightly dry before watering again. This is to encourage vigorous root growth. After plants are well started and growing give increasing amounts of water as needed. Feed with Hygro or other good liquid fertilizer when buds are the size of a pea.

TOMATO

(Ounce will produce about 2000 plants.)

F-2 HYBRIDS

Cross No. 1. Ripens in the extra early group with 5-6 oz. fruits. A superb early market variety.

Cross No. 4. Produces a heavy crop of 6-7 oz. fruit. Very vigorous maturing 10 days before Rutgers and it will surpass Rutgers in production by a wide margin. This is our favorite tomato and we recommend it highly.

Cross No. 5. A very vigorous hybrid excellent for market or processing. Fruit is slightly larger than No. 4 and will mature almost at the same time. A really fine variety.

White Bouquet. Pat. No. 1415. 1957 All American Rose Selection winner introduced by Jackson and Perkins. A floribunda with fragrant white gardenia-like blooms produced all summer. Retail each **\$2.50**

ROSES

New Introductions

The two varieties pictured are the All American Rose Selection winners for 1957.

Golden Showers will fill a long needed desire for an **everblooming yellow climbing rose** and we are sure there will be a big demand for it. **White Bouquet** is an outstanding floribunda.

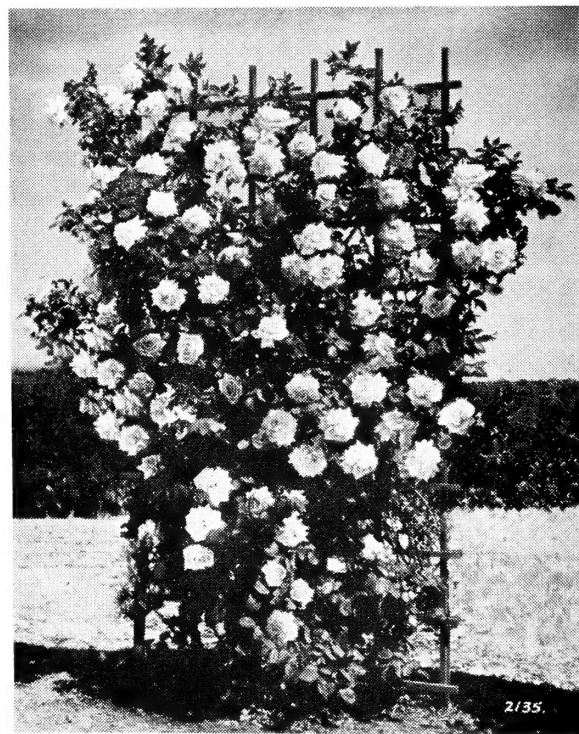

We were compelled to disappoint many of our customers last year because our entire stock of the **H. T. Love Song** was destroyed by the freeze in the Pacific Northwest, but this season we hope to have a good supply.

Midnight is one of those big black red roses so popular, and, contrary to most roses of this color, it makes a vigorous bush.

Everblooming Climbers

More varieties are being introduced each year and it will not be long before a full color range is available. **The New Dawn** introduced by Somerset is probably the freest blooming but other good ones available are, **Clbg. Pinocchio**, a free flowering climbing form of the popular floribunda, **Parade**, a deep pink or light red vigorous climber, **Pink Cloud**, free flowering light pink. Dr. J. H. Nicholas is too well known to need description. **Clbg. Goldilocks** is one of the best everblooming yellows. The flowers of **Clbg. Peace**, while they are not produced in great abundance during the summer, are sensational. **Clbg. Crimson Glory** is probably the best dark red. All of the Brownell Pillars are free flowering.

The above and many others are described in our special rose listing.

Clbg. Golden Showers. P.A.F. 1957 All American Rose Selection winner introduced by Germain. Vigorous six to eight foot plants with masses of good sized rich yellow blooms all summer. Excellent for use on pillars, fences or in the shrub border. Retail each **\$3.00**
